<p>Elderly or Disabled with Consumer Direction (EDCD)</p>	<p>Elderly or Disabled with Consumer Direction (EDCD) Waiver became effective February 1, 2005. It is the combination of two waivers, the Elderly and Disabled and the Consumer-Directed Personal Attendant Services Waivers. These two waivers ended on January 31, 2005. Five alternative services are provided under this waiver to the elderly and persons with disabilities who are eligible for institutional placement under the Medicaid Program. To receive the services under the EDCD Waiver, individuals must meet the waiver's target population. The target population includes those individuals who (1) meet the nursing facility level of care criteria (i.e., they are functionally dependent and require medical and nursing supervision of care), (2) are determined to be at risk of nursing facility placement and for whom community-based care services under the waiver are the critical services that enable the individual to remain at home rather than being placed in a nursing facility. Community-based care services under the waiver cannot be offered to individuals unless it can reasonably be expected that the individual would, without those services, enter a nursing facility. Provision of home and community-based care must be determined by a Pre-Admission Screening Team to be a medically appropriate, cost-effective alternative to</p>	<ul style="list-style-type: none"> • Personal Care • Respite Care • Adult Day Health Care • Personal Emergency Response System (PERS) • PERS Medication Monitoring • Consumer-Directed Services • Facilitation
