**Virginia Part C**

**Issues Identified in the State Performance Plan**

**Table A**
**IDEA**

The State must include documentation in the APR for, at a minimum:

- Evidence that the child or children for whom the APR is submitted meet the eligibility requirements for IDEA services;
- The number of children served by the APR for (specified activity); and
- Evidence that the child or children served by the APR are not subject to IDEA's annual performance and progress requirements.

If the State has submitted an APR in accordance with the requirements of IDEA, the State must provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 1:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 2:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 3:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 4:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 5:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.

**Indicator 6:**

The State must also provide evidence that:

- The APR is valid and current, is complete, and contains all required information;
- The APR accurately reflects the results of the State's annual performance and progress requirements;
- The APR contains all required supportive information, including data to support the conclusions about the performance of the APR in meeting the requirements of IDEA;
- The APR is submitted on time; and
- The APR accurately reflects the results of the State's annual performance and progress requirements.
